

# Xandria, Ghosts

(Into the starlit unknown  
Until the end we follow  
Nothing but shadows  
We will never return)

So many worlds I have yet to unveil  
Feel like the only survivor  
I don't belong here, just want to escape  
Higher and higher

I just want to be lost in space  
And never come back

Knowing I will not return in the end  
Never, oh never

I just want to be lost in space and time  
And never come back

Follow me up to the stars  
Leaving the world and the lies far behind me  
There's no regret in my heart  
Crawling my way, crawling my way back to life

(Into the starlit unknown  
Until the end we follow  
Nothing but shadows  
We will never return)

Enter the void that these wounds left inside  
Nothing can grow in these shadows  
Reaching a place that is closer to light  
Far from sorrows

I just want to be lost in space and time  
And never come back

Follow me up to the stars  
Leaving the world and the lies far behind me  
There's no regret in my heart  
Crawling my way, crawling my way back to life

Earth and the moon and the sun are my only guide  
Longing to live in the space between infinity

They will fade  
They became the ghosts of my past

They will fade  
They became the ghosts of my past  
Ghosts of my past

Follow me up to the stars  
Leaving the world and the lies far behind me  
There's no regret in my heart  
There's no regret

Follow me up to the stars  
Leaving the world and the lies far behind me  
There's no regret in my heart  
Crawling my way, crawling my way back to life

(Into the starlit unknown  
Until the end we follow)

Way back to life  
(Nothing but shadows  
We will never, no, never return)
