

# Xavier Wulf & Bones, CrashLanding

[Intro: oldmansteve]

Xavier Wulf, Bones, we are all counting on you

[Verse 1: Xavier Wulf]

I hopped out the ship with the woods lit  
You tryna get a hit you can forget about it  
Fall winter spring summer run it back  
I'ma smoke it down until I'm through with that  
I'm sitting candy coated collar see the color hue  
As soon as I pull up she say I fuck with you  
And right before I pull off she say what's up with you  
Baby I'ma tell ya best as I can fucking do  
I'ma switch a new shawty every blue moon  
New moon same color as my new room  
No L O V baby all I do is doom  
Told her hop off my shit I'm finna face a few

[Chorus: Bones & Xavier Wulf]

Hopped out the ship with the woods lit  
Hit the ground now we running through the jungle with it  
Hopped out the ship with the woods lit  
I'm smoking seven different flavors in my wood bitch  
Hopped out the ship with the woods lit  
I pop a candy coated collar see the color switch  
Hopped out the ship with the woods lit  
And you can see it in my eyes I ain't passing it

[Interlude: oldmansteve]

Now, you boys aren't from around here, are you?  
Walk with caution on these grounds

[Verse 2: Bones]

(What?)

HollowSESH legend that razor it be the weapon  
Let it sleep in poison, one touch and you now infected  
Rise from the wreckage and bring em the unexpected  
Off the hook like Jimmy I break the record, no special  
They tryna scream like they metal  
They tryna flow like they rappin'  
They doin' neither while we doin' anything we imagine  
We became legends at a time when we was broke in the alley  
Was smoking blunts of trash living in the garage back at Elliott's  
(What?)

[Outro: oldmansteve, Xavier Wulf & Bones]

Thank you, Hollowish Warriors, you have saved our land  
Uh, sure  
It's HollowSESH but no problem, my man
