Xe-None, Blood Rave

Blood Rave
Start the dance of mass destruction!
All the world is one dancehall
End of human evolution
DJs deaf - all exits are closed
Track by track, you have no choice
Blood rave chaos over the world
Last days, last race, twilight ages
Welcome all on blood rave show
Blood Rave, Blood Rave, Blood Rave dancers
Cyber blood - electric senses
Blood Rave, Blood Rave, burn your dancefloor
Dancing devils - Always hardcore
Start "Religion" shakes the floor
Divide the nations more and more
"Money", "Lies" and "Policy"
Two face - one democracy
The final track is called the "War"
One more country dead and gone
Are you afraid? Don't care about!
Nuclear winter - big chill-out
Blood Rave, Blood Rave, Blood Rave dancers
Cyber blood - electric senses
Blood Rave, Blood Rave, burn your dancefloor
Dancing devils - Always hardcore
We are start in 2004
