

XXXTENTACION, bad vibes forever (feat. PnB R

get your grind on tonight
grind on tonight
in the end
n*gga eyes rollin' in my brain
what we gon' do?
I can barely keep control

catch the vibe of me
get the feel of me
in front of me

put your pride in all ort nothin'
prode in all or nothing'
in the end
nogga, eyes rollin' in my brain
what we gon' do?
I can barely keep control
catch the vivbe of me
get the feel of me
in front of me

I said
hey, put your pride right to the side
I can waste your time
or I can change your life
I said now
oh shawty,
where you goin'

I just ned one moment
so baby, keep your focus
I said stay, stay, baby
stay stay baby
please don't run away
please don't stray away
