

# You me at six, MAKEMEFEEELALIVE

Where is your empathy  
Drain me of Energy  
Snakes keep on circling me  
Hiatus from the haters  
They ain't the ones that made us  
And no one came to save us  
Age, sex, location  
Divided as a nation  
The lost generation?  
Lets start the conversation  
How do we alienate tchem  
2020 invasion of the senses

Sell the ids the dream  
We're on the same team  
Lets built their self esteem  
Just to fucking tar it dwon again

Make me feel alive  
I am fucking dead inside  
Make me feel alive  
Cos i am so fucking dead inside

You try and fill the papers  
With dream state connotations  
But we don't wanna read tchem  
Fuck what the facts up  
Forget what the plan was  
I gotta confess  
I know i am the best  
It's all in your head when you say  
That we're depredded

Lines ain't my thing  
Drinkin's more my scene  
I want to numb the pain  
You wan to get clean
