

Yulan Law, Stronger (Malta - Piosenka na Eurowizji)

Patience

You think you cannot cope another day

But all you need is patience

You promised me you wouldn't fade away

Wanting to escape

Can't see that you're amazing

Look at your reflection, all you want to do is change it

Have patience

Don't let it get you down it's just a phase

No

You're so much more than you know

I know we may have a long way to go

But I see the glow in you

Look at us now

Stronger than ever before, ooh-eh

We fought all the battles, jumped all the hurdles

Nothing can stop us

Take a look at us no-oh-ow

Saviour

To mend the broken heart along the way

Don't you need a saviour

But you're the only one to make a change

And I swear getting older, you think that we'll be bolder

But here we are still waiting to be saved

Still have a long way to go

But I see the glow in you

Look at us now

Stronger than ever before, ooh-eh

We fought all the battles, jumped all the hurdles

Nothing can stop us

When the storm is awaiting, just try to be patient

I promise we'll make it somehow

(Look at us)

Look at us now... (Look at us, look at us, look at us now)

Stronger than ever before, (Look at us, look at us) ooh

(Look at us now)

Look at us now, (look at us), look at us (look at us now, look at us now) wow...

Won't you look at us

Won't you look at us, duh duh-ooh-ooh

Look at us now
