

# Yung Lean, Shine

[Intro]

If I die

[Hook]

Shine, all I do is outshine  
I can't go outside  
I do this for my life  
Fluorescent lights  
I need a bitch by my side  
All my brothers gon' rise  
All I do is outshine

[Verse]

Blood, blood on the moonlight  
Let me live, I'm alive  
No feelings left in the night  
White powders sprinkle my Sprite  
I stay up, and I work all night  
I flipped a couple of cows  
You know I don't play both sides  
Let me come inside  
No moon, only a space station  
I felt my face melt, I left my chain stealth  
I'm just like Rainman, my money raining  
I'm feeling sacred, Diamonds my bracelet  
Shawty needs face lift, you know I'd take it  
Would always chase it, my heart could never break it  
My cuffs can't break in, I'm not even gonna say shit  
I don't like conversations, I feel my face melt  
No moon, only a space station  
Lend me a light

[Hook]

All I do is outshine, outside, go outside  
I can't go outside  
I do this for my life  
I see fluorescent lights  
I need a bitch by my side  
And all my brothers gone' rise, gone' rise, gone' rise

[Outro]

Let me in, I'm alive  
Let me in, I'm alive  
All my brothers gon' rise  
The feelings left in the night, in the night, in the night, oh, oh  
Outshine, all I do is outshine  
You know I can't go outside  
I do this for my life, my life, my life  
I see fluorescent lights  
I need a bitch by my side  
All my brothers gon' rise  
Blood on the moonlight  
Let me in, I'm alive  
Let me in, I'm alive  
Let me in, I'm alive  
You know I can't go outside, outside, outside  
I'll promise I'll try  
I need a bitch by my side  
Know what I do is shine  
I do this for my life, my life, my life, my life
