A damn about you, that's why we fin to ride

[Trae]

My team, Guerilla Maab until it's over
Running bitch niggas over, beaming a glock like I'm a soldier
Ready for war who that hating on Trae, and knowing they trash
Throwing they ass up out my face, if they think of blocking my cash
Mo' rocks than Damon Dash, independently I'm a threat
AKA a vet, and spraying them niggas until they wet

Half of these niggas out here be spitting bullshit, like they retarded
Disregarded never, I'm better than the rest of the game

With my kin folk Ro dog, and the L dog
Everytime let me tell y'all, we thoed I'ma swell y'all

(*talking*)

[Hook]

This one is dedicated, to them niggas that hate it
It's been a long time, but we finally made it
We the realest of the real, and we can never be faded
It's been a long time, but we finally made it
We the future of the funk, you punks is outdated
It's been a long time, but we finally made it
Breaking laws and jaws, cause you bitches is overrated
It's been a long time, but we finally made it

[Z-Ro]

Presidential got a problem, with me making my cash
Trying to starve a nigga out, and have me flat on my ass
One hundred and sixty thousand, what they suing me fo'
But since my shit's selling, you could never ruin me hoe
25 hours a day, I be packing that lead
Chasing paper so me and Fred, steady stacking our bread
I understand that you bullshit niggas, done flip-flopped
Trying to hold on to a nigga, hitching a ride to the top
(and 97.9), the biggest hoes I know
Now Walter D is my nigga, the rest of em be hating Ro
What do you know, why these niggas all up in my face
Back back I'm about two seconds, from catching a case
When I walk up in the club, they act like they don't see me
Nervous in my presence, praying that Z-Ro will take it easy
I'ma take it hard, while I'm killing em softly
Till they gone, they been hating us for way too long

[Hook]

[Jay'Ton]

Slow Loud And Bangin in they face, and niggas acting like hoes
I think it's cause we never went, when we be spitting out flows
Got cash I'm sick with it, I spit it cause I'm a G
It's the Jay'Ton, repping S.L.A.B

With Ro Dog and Trae, my flag be doing great
Undisputed like weight, when I'm upper cutting in your face
Body blows and jabs, for niggas hating on S.L.A.B
You come with that bullshit, guaranteed I'm beating your ass
It been a long time, and we finally made it
Hopped the slab off the AVE., and I finally sprayed it
No more slanging on the block, cause the block got raided
Like the point on the dice, I can never be faded

(*talking*)

You know we got this hoe ass devil on our back
On our motherfucking ass, that nigga can't face up
