

# Zara Larsson, Under My Shades

Under my shades, under my shades...

This young girl, she's so fresh  
She's just chilling (Under my, under my shades)  
Day and night, right or left  
Haters grilling (Under, under my, under my shades)

But this young girl, she don't care  
No big dealing (Under my, under my shades)  
I'm on one, can't be sun  
Straight up billin' (Under, under my, under my shades)

Can't nobody tell what I'm watching  
What I'm watchin'  
Can't nobody see who I'm clocking  
Who I'm clocking

I can see the world before my eyes  
I'll take the world and make it nice  
Just put a cherry on top  
Leave 'em on, yeah they never come off

I can see the world before my eyes  
And change the love that's in the eyes  
Just so incredibly soft  
I leave 'em on, yeah they never come off

These young guys act so fly  
They keep jockin' (Under my, under my shades)  
I just look, I don't buy  
Window shopping (Under, under my, under my shades)

These young boys make a lot of noise  
But that won't phase me (Under my, under my shades)  
I be stuntin' with my shades  
And it makes 'em crazy (Under, under my, under my shades)

Heteres really cloud  
Block 'em out, block 'em out, block'em out  
Out if you really wanna  
Look'em up, look'em up

I can see the world before my eyes  
I'll take the world and make it nice  
Just put a cherry on top  
Leave 'em on, yeah they never come off

I can see the world before my eyes  
And change the love that's in the eyes  
Just so incredibly soft  
I leave 'em on, yeah they never come off

Never come off  
(I wear my shades on the streets)  
Never come off  
(I wear my shades on the beach)  
Never come off  
(I wear my shades in the club)  
Never come off, never ever come off

Never come off  
(I wear my shades at the mall)  
Never come off  
(I wear my shades in the hall)

Never come off  
(I wear my shades when I want)  
Never come off, never ever come off

(Oh, hey, yeah, yeah)

Get your shades, put 'em on  
Get your Gucci's, or Vuitton's  
Get your Ray's, or your fakes  
Come on, come on, come on, come on, come on  
Put 'em on!

I can see the world before my eyes  
I'll take the world and make it nice  
Just put a cherry on top  
Leave 'em on, yeah they never come off

I can see the world before my eyes  
And change the love that's in the eyes  
Just so incredibly soft  
I leave 'em on, yeah they never come off

Never come off  
(I wear my shades on the streets)  
Never come off  
(I wear my shades on the beach)  
Never come off  
(I wear my shades in the club)  
Never come off, never ever come off

Never come off  
(I wear my shades at the mall)  
Never come off  
(I wear my shades in the hall)  
Never come off  
(I wear my shades when I want)  
Never come off, never ever come off
