

# Zedd, Addicted To A Memory (ft. Bahari)

We are, we are a fallen chemistry  
Love has taken us as far as we can reach, but I can't leave  
We are, we are imagine ecstasy  
Holding on to what we used to be  
Addicted to a memory

Holding on to what we used to be  
Addicted to a memory

A memory

We are, we are in-love enemies  
We are sent and then all slaves will know get knees  
We aren't empty  
We were, we were one identity  
Now the trouble is remembering addicted to a memory
