

# Zedd, Good Thing (with Kehlani)

I book myself tables at all the bet restaurants then eat alone  
I buy myself fast car just so I can drive them real fucking slow  
I like my own company, company I don't need it  
I'm not always cold I'm just good in my on  
so good on my own

I've always been told  
one day I'll find  
somebody who  
changes my end  
if they come along  
I won't think twice

cos I already got a good thing whit me  
I already got everything I need  
the best things in life  
are already mine  
don't tell me you got a good thing for me

cos I already got a good thing whit me  
I already done everything o dreamed  
I am good by myself  
don't need no one else  
don't tell me that you got a good thing for me  
cos I already got a good thing

I make myself up just to dance in te mirror when I am at home  
I pose and take pictures that send them to people I don't know  
I like getting compliments, it compliments how i am feeling  
I am not always selfish just bad at romance it's in my bones

cos I already got a good thing whit me  
I already got everything I need  
the best things in life  
are already mine  
don't tell me you got a good thing for me

cos I already got a good thing whit me  
I already done everything o dreamed  
I am good by myself  
don't need no one else  
don't tell me that you got a good thing for me  
cos I already got a good thing

I've always been told  
one day I'll find  
somebody who  
changes my end  
if they come along  
I won't think twice

cos I already got a good thing whit me
