

# Zucchero, Baila (ang.)

It blows my mind now that I found you  
Deep in the night of tequila boom boom  
Slide by me, sexy thing, sexy and fine  
I got my eyes on you all of the time... yeah  
You've got to have chaos burnin' in you  
To make you open like a flower in bloom  
Hell lives inside you next to paradise  
The moon and sun have come to watch your shine  
Baby, the night is on fire  
Yea, we're flames in the sky  
Flashin' through the night... what you say?  
Baila, baila morena  
Sotto questa luna piena  
Under the moonlight  
Under the moonlight  
Go chica, go cocca keep it all shakin'  
You know tonight somethin's up for the takin'  
My heart is gold, heart of a saint  
With you beside me girl, oh, then I ain't  
Baby, the night is on fire  
Yea, we're flames in the sky  
A scandal in the night... what you say?  
Baila, baila morena  
Sotto questa luna piena  
Under the moonlight  
Baila, under the moonlight  
Sotto questa luna piena  
Baila morena... yeah yeah yeah  
You got me hurtin' so bad, so bad  
I got to have it, so bad  
Baila, baila morena  
Sotto questa luna piena  
Under the moonlight  
Daila, under the moonlight  
Sotto questa luna piena  
Daila morena  
Sotto questa luna piena  
Sotto questa luna piena  
Sotto questa luna piena  
Under the moonlight.
